GRANTS

1. Provost Research Fellows Program, Towson University, July 2024–September 2024 (\$15,000). "Medicaid Work Requirements, Labor Market Effects and Welfare." Study the effects of Medicaid work requirements on labor market outcomes and welfare using a general equilibrium overlapping generations model.
2. College of Business and Economics Course Development Summer Program, Towson University, June 2024 (\$5,000). Develop a new masters level course: Machine Learning for Economics.
3. College of Business and Economics Faculty Development Summer Research Grant, Towson University, July 2023 (\$6,000). "Health Shocks, Portfolio Choice and Inequality." The goal of this study is to create a dynamic model of portfolio investments over the lifecycle together with health shocks. We investigate the implication of health shocks on wealth inequality through the portfolio investment channel.
4. College of Business and Economics Faculty Development Summer Research Grant, Towson University, July 2022 (\$5,000). "Aging and Innovations in the Healthcare Sector." The goal of this study is to create a dynamic model of innovation in health and health services production and study its implication on healthcare cost.
5. School of Emerging Technologies – grant for interdisciplinary and collaborative research involving emerging technologies, Towson University, awarded May 2019 (\$12,150). "Career Effects of Health Shocks during the Great Recession." In this project we investigate how health shocks during an economic downturn such as the Great Recession shape the lifecycle career pattern of US workers with researchers from the Stanford Center for Longevity.
6. College of Business and Economics Faculty Development Summer Research Grant, Towson University, July 2014 (\$4,000). "Health Risk and Insurance over the Life-Cycle." The goal of this study is to create a dynamic model of health and insurance choice for the U.S.
7. PI for Centers for Medicare and Medicaid Services (CMS)/ Office of the Chief Actuary (OACT) "Multi-Agent General Equilibrium Modeling," with Matthew Chambers and Chung Tran, August 20, 2012 – August 20, 2013 (\$134,204) In this study we analyzed the long-run effects of the Affordable Care Act on the U.S. health care system using a systems approach.
8. Towson University Research Fellowship Program "A Macroeconomic Analysis of the Fiscal Austerity Measures in Greece," with Gerhard Glomm, March 2011 – March 2013 (\$6,000) In this study we developed a dynamic simulation model of the Greece economy and modeled public sector reform in the face of large government debt and increases in the risk premium.

9. PI for R03 Grant from Agency for Healthcare Research and Quality (AHRQ) "*Health Care Financing over the Life Cycle: A Quantitative Macroeconomic Analysis of U.S. Health Care Reform Plans*," with Chung Tran, awarded August 2010 – August 2011 (Grant number: 1R03HS019796-01, \$66,787). In this study we developed a large scale macroeconomic simulation to assess the effect of health care reform measures over the life-cycle of a U.S. household.
10. World Bank consultant to provide "*A Macroeconomics Analysis of the Fiscal System in Egypt*," with Gerhard Glomm, completed in June 2010 (\$15,000). In this study we provided a dynamic simulation to the World Bank to analyze cuts in energy subsidies in Egypt.
11. College of Business and Economics Faculty Development Summer Research Grant "Health Insurance Vouchers," Towson University, July 2009 (\$6,500). The goal of this study was to develop a model to simulate the short- and long-run effects of the introduction of health insurance vouchers into the U.S. health care system.

WORKING PAPERS AND ONGOING PROJECTS

1. "The Effects of Medicaid Expansion in the US South," with Vinish Shrestha
2. "The Lifecycle Effects of Health and Local Unemployment on Job Promotions," with Vinish Shrestha
